FROM THE RACE DIRECTOR

The people above make River Run happen. They put their time and money to work so you can have a great race to run. I thank them one and all! 5,116 finishers this year in the 15K. That's the most since 1984. This was our biggest year ever for women finishers (over 1,300). The numbers are very encouraging. I appreciate your participation. Each year River Run seems to be the launching pad for a new road race star. In 1984, it was Mark Stickley, 1985-Priscilla Welch, 1986-Arturo Barrios, 1988-Steve Spence and John Halverson in 1989. Watch out for John! He's young and eager. He beat what I consider to be River Run's greatest field. His performance of 43:12 was the third fastest winning time in River Run history. However, I believe it was the best performance to date when you consider the 97% humidity at the start, plus taking the wrong exit off the Main Street Bridge (about a five second difference).

River Run VIII will be held on March 10, 1990. What will the new decade hold for running? More women runners! Larger prize purses in non marathon events! More races that are divided into separate invitational and open races! and 1,000 new styles of running shoes. This all means that the state of running is healthy. I hope we can keep River Run at the top in the coming years. We will do our best to make this race the best in the world. Tell your friends and bring them with you next year.
