(904) 739-1917

To The Editor:
Florida Times Union

March 16, 1993

I would like to thank all the people who helped make the 1993 Gate River Run a successful event despite the adverse conditions that we faced this past weekend.

The support from the City of Jacksonville was wonderful. Thanks to Sam Mousa and the Public Works Department, who cleared the course of some trees that I thought would take days to remove. It was great to be able to run our exact course. I really appreciate the efforts of Laura D'Alisera, Director of the Recreation Department and Peter Sullivan of Spectacor who came to the rescue and opened the Coliseum before and after the race so that runners would have a place to get in out of the cold. My deep felt appreciation goes out to all the volunteers who braved the 5 degree wind chill factor to make the Gate River Run happen on Sunday. I owe you one! Finally, the support received from sponsors was endless. Thank you for being there when so desperately needed.

To the many churches and churchgoers that were affected by the decision to reschedule to Sunday morning. I ask your understanding. There were many factors that had to be considered in making this decision and the effect on you was definitely one of them. I asked the police to do everything in their power to get everyone to their churches as quickly as possible. I hope your delay was only a short one.

To all the runners that were unable to run the Gate River Run this year due to the rescheduling, I can only say how sorry I am that you missed the race. Months were spent planning this year's event so that you would always remember how great it was, as it turns out, you will remember it, not for it's greatness, but for it's misfortune.

To my wife, Jane, I couldn't do it without you! Thanks!

Doug Alred

THE UNTHINKABLE DECISION

By Doug Alred

Directing a major race is sometimes a stressful occupation. In addition to the seemingly infinite details that must be attended to, there is the ever present fear of things that may go wrong.

There had always been the possibility of a mishap such as an open Main Street Bridge, or a train blocking a crossing in San Marco, but I had never considered that the weather might be more than an inconvenience to conducting the race.

As the week wore on approaching River Run, it became apparent that poor weather was likely for race day, but when I went to bed Friday night, I was pretty much convinced that nothing would stop us.

When I got up on Saturday morning around 5:00 AM, the weather didn't seem that bad. However, when I went outside, I noticed when looking up, that the clouds were moving about 60 miles per hour, but on the ground the wind wasn't that strong.

The first indication of trouble came at 5:15 when Art Picus called and told me that waves along the river were coming up over the bulkhead, and that there might be flooding on San Marco Blvd.

I drove down the the San Marco area to check on conditions and sure enough the right hand side (where we run down before we make our turn towards the river) was starting to get water, but what amazed me was when I got to Landon Street, it was like a white water river boiling onto San Marco.

I went to the next block and there was the tree lying across the road with our 5K banner. It was at least 5 feet in diameter making the road impassible.

My immediate thought was, OK, we'll change the course by running one block further on San Marco and coming down the next street, and I headed for the starting line from there.

When I got to the starting area, I could see the trailer over on it's side. Someone came over and said, "...just 10 minutes ago, the trailer flipped over." Actually it was lucky it hadn't been a half hour later because I would have probably been in it.

When the police came over I said, "We can't start on time. We'll reschedule for 10:30."

The next move was to talk to Tim Deegan, the Weatherman and runner who was on duty at Channel 12. My thought at the time was that we would have the race some time that day when the winds had died down. Tim assured me that the winds were not going to abate any time during the day and so at that point, about 7:10 AM, the decision was made to postpone until Sunday.

The next consideration was to be able to advise runners, particularly those from out of town, of the postponement as soon as possible so that they could make plans to stay over until Sunday. Even so, many of the runners on evaluating the situation and the great damage that had been done, concluded that the race would not be held at all, and so they decided to return home.

The police were extremely cooperative throughout the morning and had no part in the decision to postpone. They assisted in getting out the word that the race had been reschedule for Sunday at 8:30 AM.

We then called TV and radio stations so the people could find out about the rescheduling while they were still enroute to the Gator Bowl.

It seemed at that point that if we couldn't hold the race on Sunday, that it couldn't be held at all for 1993 unless it was held at a much later date. It might have been necessary to go through the permitting process again, and there would have been no chance of assembling a world class field of runners.

All efforts were then directed towards regrouping and getting ready to hold the race on Sunday. We called everyone we could think of to make sure the absolutely essential items were taken care of.

The tree that had fallen and blocked the course at the 5K point had to be removed; downed power lines all over the course had to be repaired; and the knee deep water on San Marco Blvd. had to recede. Before the end of the day, we verified that all of those things had been done.

Another obstacle presented itself when it began to turn cold and a few snowflakes began to fall. I could picture a layer of snow on the ground when we got up on Sunday morning.

As for the race on Sunday, aside from the wind on the Hart Bridge, the weather was not a problem. We did lose two water stations, that couldn't be staffed on Sunday and a number of finish line volunteers didn't return which necessitated reducing the number of finish chutes from six to four.

We definitely made the right decision. I have no doubt that had we attempted to run on Saturday, someone would have been injured due to flying debris, being blown off the bridge, contacting a downed power line, or tripping over debris on the road.

The safety of the runners came first in the decision to not hold the race on Saturday. 3,546 runners finished the race on Sunday without any mishaps.

Jacksonville Track Club

MEMBERSHIP APPLICATION

The Jacksonville Track Club (JTC) is a non-profit organization established for the purpose of running development on a community, regional and national level. It is a member of the Road Runners Clubs of America (RRCA). Membership is open to persons of all ages and abilities.

FUNCTION

The JTC has a dual purpose function. First is the development of local community running programs supported directly by JTC funds and membership participation.

Secondly, the JTC supports an "open-class" group of developing cross-country, road running and track and field athletes who represent the club competitively.

ACTIVITIES

The club activities include sponsorship of many year-round cross-country and road races, including River Run 15,000, The Beaches 5 and 10 mile runs, The Ginger Fannin-Couples Run, The Last Gasp Cross Country and the JTC Women's Run. The JTC also coordinates track meets during the spring and summer for members and the community. Open training runs are held throughout the year.

During the summer the JTC sponsors age-group developmental programs for young runners and twilight track meets for all ages.

Membership in JTC includes the following:

- Monthly newsletters which include timely articles and a race calendar of upcoming races in North Florida and South Georgia.
- Discounts at several area shops on shoes and apparel. Details in the newsletter.
- Discount at all JTC sponsored races.
- Use of track facilities at select local schools.
- Membership in the Road Runners Club of America which provides the quarterly newspaper "Footnotes".
- Monthly meetings featuring highlights of JTC activities and guest speakers. See the newsletter for details on time and place.
- Eligibility to purchase official JTC racing uniforms and other gear.

AvMED™

HEALTH PLAN

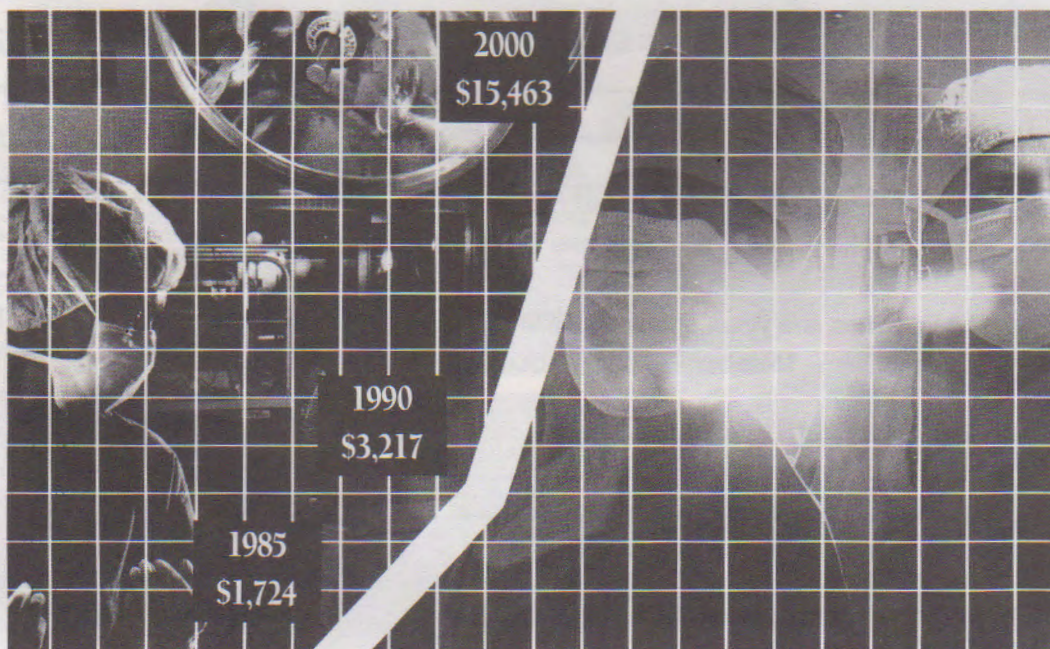

Between 1985 and 1990, the average annual cost of an employee's medical bills and insurance — costs borne by the employee and the employer — almost doubled. Those costs are projected to quintuple by the year 2000.

How will your company survive?

The best way — perhaps the only way — is by acting now to start controlling costs. And we can help. We're AvMed. Florida's largest not-for-profit health plan, and the only Florida HMO accredited by the National Committee for Quality Assurance. We can offer your company a variety of managed care options

designed not only to significantly reduce costs, but to just plain keep your employees healthier. How? Through a proven program of preventive care with no deductibles, and co-payments of only five to fifteen dollars. Members are actually encouraged to see their doctors. And that's the best way to catch little problems before they become big, expensive ones. We can do for your company what we've done for hundreds of others in Florida. But you have to call us first. And you should. Because, by keeping your employees healthier, we can help you save a lot of money And maybe even your company.

At this rate,
health care can
kill you.

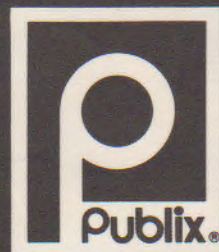

Miami: 800-432-6676; Ft Lauderdale: 800-368-9189; Tampa: 800-257-2273; Orlando: 800-227-4848;
Gainesville: 800-237-1255; Jacksonville: 800-227-4184;

Some would call this
murder on the muscles,
torture on the feet,
cruelty to the lungs,
and way too early to get
up on a weekend.

You probably think it's fun.

Good for you. And for everyone with the guts and determination to make it to the finish line. Three cheers for all of you from Publix. Where shopping is a pleasure.
